

Mysteriousity Between Mantra

between two worlds
is the third world
between two stars
light meets itself

between two breaths
death unlocks us
between long sleeps
we are reborn

we do not see
the mountain move
the ocean still
hummingbirds rest

we do not feel
the birthing pangs
of nebula
or of blue whales

but still whales sing
darkness scatters
hummingbirds dream
and earth shapeshifts

leaves do not turn
orange or red
or brown or gold:
they stop hiding

transformation
revelation
fermentation
distillation

get drunk with me
let's drink dew drops
from acorn cups
and eat wish cake

you are the light
I meet in me:
untether fear
and let it fly

these lines are not
the shape of us:
our beings join
and breathe between
